NOTICE

Remember that we grow our own stock under the same climatic conditions and in soil similar to yours. All stock is always carefully dug to preserve all the roots so you know it can grow.

While we guarantee to furnish you only first class, live trees and plants, we cannot assume any responsibility for the life of the stock after it leaves our Nursery, for then the care of it is no longer in our hands. The success of all plants is directly dependent on the weather, rainfall and care given by the purchaser, and these are all conditions over which we have no control.

Non-Warranty: We give no warranty either expressed or implied as to the description, quality or productiveness or any other matter of any Nursery Stock we sell, but we hold ourselves in readiness on proper proof, to replace free of charge any stock that may prove untrue to label or we will refund the purchase price. We are liable at no time for more than the original price paid.

THE CLYDE NURSERY, CLYDE, O.

A PERSONAL MESSAGE

For seventy-eight years we have been growing trees and plants for customers who demand good quality plants at fair prices. This season we are offering a larger stock than we have ever grown before and prices are still reasonable in spite of increased cost of production.

We invite those who can to come to the Nursery and see our stock, but if you cannot come, we will fill your mail orders carefully so you will be well pleased.

A. R. and Royce Pickett

* *

MAIL ORDERS

Whether you come to the Nursery for your order or send it for shipment, you can always be sure of our most courteous and careful attention.

All orders should be accompanied by cash, or we can ship C.O.D. if you prefer. Cash, however, saves you the C.O.D. collection fee.

Orders for small plants can be sent by mail, but such items as Evergreens and Trees are too large for mail shipments and they are sent express or freight.

In figuring postage, you should add 10c to a \$1.00 order, 15c to a \$2.00 order and 25c to orders over \$2.00. Be sure to add the sales tax to your remittance if you live in Ohio.

Farmers and fruit growers are not required to pay sales tax on orders of Fruit Trees or Berry Plants, which are purchased for the purpose of producing fruit for market.

All express and freight shipments are sent with transportation charges collect.

THE CLYDE NURSERY, CLYDE, O.

BETTER QUALITY FRUIT TREES

Our fruit trees are grown here in our own large Nurseries under the personal supervision of members of our firm. The parent trees from which ours are propagated are always selected in bearing private or State Experimental Station orchards. Trees are chosen a parents only when they have outstanding records of Vigor, Hardiness and Productiveness. You know that these trees are pure and of the best strains.

Our trees, well cared for in the Nursery, develop into thrifty, well rooted trees, and when we dig them we run the digger under very deep, so that ALL the roots come out and you know the trees can grow for you.

The laws of nature make trees bear better in groups, so plant more than one variety of each fruit so they may cross-pollinate.

Varieties which are preceded by a star thus (*) have been tried and tested until we are certain that they will give satisfaction to our customers. These starred varieties are the best that can be had.

* *

Number of Trees or Plants for an Acre of Ground Set at Regular Distances Apart

Feet		Feet	
1 by 1	43560	5 by 5	1742
2 by 1	21780	6 by 6	1210
2 by 2	10890	8 by 8	680
3 by 1	14520	10 by 10	435
3 by 3	4840	16 by 16	170
4 by 1	10890	20 by 20	109
4 by 2	5445	25 by 25	70
4 by 4	2725	30 by 30	48
5 by 1	8712	35 by 35	35
5 by 3	2904	40 by 40	27
5 by 4	2178	50 by 50	18

Rule: Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number square feet for each plant or hill; which divided into the number of feet in an acre (43560) will give the number of trees to an acre.

THE CLYDE NURSERY, CLYDE, O.

APPLE

Apple trees will thrive on nearly any well drained soil. Their period of ripening, unlike other fruits, extends nearly through the whole season. By making careful selection, a constant succession can be obtained.

Size	Each	Per 10	Per 100
5 to 7 ft.	\$.75	\$ 6.00	\$35.00

STANDARD PEAR

Plant 15 to 20 feet apart

Size	Each	Per 10	Per 100
5 to 7 ft.	\$.85	\$ 7.00	\$50.00
4 to 6 ft.	.75	6.00	45.00

Summer Varieties

- *Bartlett—A popular pear, Aug. Sept.
- Clapp's Favorite—Splendid flavor, Aug.
- *Cayuga—Flesh firm and fine in texture, flavor rich
New pear of the Seckel type introduced by N. Y.
Experiment Sta.
- *Gorham—Also from the New York Station—A
Bartlett type with tender, buttery and juicy
flesh, Sept.
- Wilder—A good early Pear ripening in Aug.

Autumn and Winter Varieties

- *Bosc—Good shipper, vigorous, Nov.-Dec.
- *Duchess—Good for canning, large, Oct.-Nov.
- Flemish Beauty—Juicy and sweet, Nov.
- Kieffer—Fruit is of low quality.
- *Ovid—From N. Y. Experiment Sta. where it ripens
in Dec. Large fruit, resembles Bartlett.
- *Seckel—A small sweet pear of highest quality,
Oct.

Dwarf Pear

STRAWBERRIES

We dig Strawberry Plants each morning so that you are sure of getting fresh, hardy plants. Ours are unusually well rooted and are always carefully dug.

BEAVER—A large, big red, mid-season berry.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

CATSKILL—The best late ripening sort—a shiny bright red berry that is firm and bears well.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

DORSETT—Thrifty plants that ripen large red berries as early as Premier. Rich red in color and ships well.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

DUNLAP—Large size, firm, very dark red mid-season berry, wonderful for canning.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

FAIRFAX—Large, good color, early and productive.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

PREMIER—The greatest early Strawberry of all time. Yields heavily and makes a thrifty growth.

25 for 35c	100 for \$1.00	1,000 for \$6.00
------------	----------------	------------------

GEM EVERBEARING—This is a proven Everbearing variety that will produce berries all summer and through the fall.

25 for 50c	100 for \$1.50	1,000 for \$10.00
------------	----------------	-------------------

MASTODON EVERBEARING — Large, luscious berries from June until freezing time. Immense and dark red.

25 for 50c	100 for \$1.50	1,000 for \$10.00
------------	----------------	-------------------

* *

ASPARAGUS

This finest of spring vegetables is among the easiest cultivated and most profitable. We offer only the Martha Washington strain for it is rust resistant and far superior to any of the other kinds.

EVERGREENS

We have a pleasing assortment of varieties from which you may choose. We are always glad to help you with suggestions as to the varieties most suited to your location.

Our Evergreens are sheared often to develop shapely tops and are always dug with a ball of earth, which is the only safe way to transplant them.

	Size	Each
Arbor Vitae, American (Pyramidal shape)	18-24 in.	\$1.39

Evergreens grow in beauty each year

THE CLYDE NURSERY, CLYDE, O.

HEDGE PLANTS

Our well rooted, bushy plants quickly make a splendid fence of living green. All varieties make satisfactory hedges if the plants are set in a straight row 1 ft. apart. If a wider and more dense hedge is desired, set the plants in a double row 8 inches apart each way.

	Each	Per 10	Per 100
Barberry, Box (very dwarf)

PEONIES

This list comprises some of the finest varieties in existence. Buy some of the rare varieties while they can be purchased so reasonably.

- Albatre—Ivory white, 49c.
- Albert Crousse—Late shell pink, 49c.
- Baroness Schroeder—Milky white, mid-season, 75c.
- Cherry Hill—Semi-double, early deep garnet, 49c.
- Clair Dubois—Satiny pink, late mid-season, 75c.
- Couronne D'Or—Creamy white, late, 49c.
- Duchess de Nemours—White, mid-season, 49c.
- Felix Crousse—Ruby red, mid-season, fine, 49c.
- Festiva Maxima—White, flecked with red, 49c.
- Floral Treasure—Fragrant, large lilac-rose, 49c.
- Frances Willard—Bluish white, mid-season, 75c.
- Fuyajo—Dark red Japanese, single, \$1.00.
- Grover Cleveland—Fine dark crimson, 49c.
- Gigantea—Early, very large, pink, \$1.00.
- Lady Alexandra Duff—Delicate pink, mid-season, 75c.
- Lillian Gumm—Pink, very large, \$1.00.
- Longfellow—Cherry red, early mid-season, 75c.
- Madame Geissler—Rose pink, late, fragrant, \$1.00.
- Madame Louise—Late pink, 49c.
- Marie Jacquin—Cream white, tinged flesh, 75c.
- Marie Lemoine—Very late white, 49c.
- Martha Bulloch—Old rose pink late, large \$1.25.
- Marquis Lagergreen—Dark red, 75c.
- Mary Brand—Deep red mid-season, 75c.
- M. Emil Galle—Sea-shell pink, lavender tint, \$1.00.
- M. Jules Dessert—Creamy white, tinged salmon, \$1.00.
